### **REASONS FOR ALLOWANCE**

1. The following is an examiner's statement of reasons for allowance: The prior art does not teach or suggest a switch including a housing having a hollow interior with first and second contacts spaced apart from one another within the hollow interior; a closure mounted to the housing; and a pivot arm mounted to the closure and having first and second nodes located between the two contacts. The pivot arm moves in response to an inertial force from a first direction so that the first node engages the first contact and moves in response to an inertial force from a second direction so that the second node engages the second contact.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
